Electronic Switch | Glass Effect | Polished Onyx Finish

a masterpiece

MK Elements is a new range of elegant and premium wiring devices from Honeywell. The range reinvents the look, feel and function of wiring devices with a fresh perspective as an integral and interactive art form, making it an epitome of exquisite beauty. The range leverages the aesthetics of any space, with timeless materials, textures inspired from fine art and previously unreachable levels of attention to detail. While designed with striking looks, the Elements range is also engineered to enhance the user experience. The functional aspects of the products are engineered to surprise the user with charm, intuitiveness and ease of use.

Like everything MK does, it's beautifully simple... and simply beautiful.

It's a masterpiece.

a masterpiece

ELEMENTS SYNTHETICS

A MASTERPIECE INSPIRED BY SIMPLICITY

SWITCH ON TO MINIMALISM

The effortless perfection of the 'Elements Synthetics' finishes provide a stunning simplicity to complement any setting.

Inspired by the qualities of the contemporary design philosophy of minimalism, Natural Stone and Beach Pebble offer a refreshingly subtle and contemporary option, while the smooth and striking Chalk White adds a unique twist to the most basic of colours.

The clean line border adds elegance to

Elements products and makes them stand out distinctly.

Because MK is the original inventor, the functionality is just as good as the aesthetics. So, each product, whether it be a switch, socket or electronic dimmer, offers the ultimate in safety and reliability too.

The refined result stands out from the competition... but won't stand out from the surroundings.

ELEMENTS GLASS EFFECT

A MASTERPIECE INSPIRED BY CLARITY

SWITCH ON TO SHEEN

The 'Elements Glass Effect' finishes beautifully challenge every perception of what modular wiring devices should be.

Smooth, gleaming and glossy, the Elements Glass Effect plate comes with an engineering innovation of Grade 6 scratchproof coating, to ensure a memorable impression even after years of use.

From the refreshing coolness of Ice White to the shimmering surfaces of

Polished Jade, Polished Onyx and Polished Stone, each radiates an irresistible tactile quality.

Once drawn to touch it, the dimmer's easy-to-use LED display provides the perfect example of functionality and flair in harmony.

And of course, MK's reputation for technical excellence ensures a performance that's as polished as the product itself.

ELEMENTS METALLICS

A MASTERPIECE INSPIRED BY STRENGTH

SWITCH ON TO STURDINESS

The exquisite elegance of our robust 'Elements Metallics' finishes provide yet another example of MK's innovative thinking in action.

Combining muted tones, superior styling and unmatched metallic strength, the exclusive allure of Satin Platinum and Satin Titanium bring a harmonious accompaniment to every contemporary surrounding.

Unrivalled design also ensures that Brushed Steel and Cast Iron offer the perfect demonstration of understated strength, while the bold and beautiful Brushed Bronze option makes a simple yet stunning statement.

Precisely manufactured in UK to MK's exacting standards, the distinctive Metallics range provides a strong, sophisticated and practical way to elevate any interior design scheme to the truly unforgettable.

ELEMENTS NATURALS

A MASTERPIECE INSPIRED BY NATURE

SWITCH ON TO TEXTURES

Natural finish draws inspiration from nature's inexhaustible sources of beauty. The finish blends simplicity with exquisite materials, to bring in the contemporary style.

The natural textures of wood are expertly brought to life in British Oak and Dark Wenge. Sourced directly from the forests of Europe, each lot lends its unique pattern in the reflection of nature. As you'd expect from the market leaders, the Elements Naturals finish combines earthy materials with ground breaking

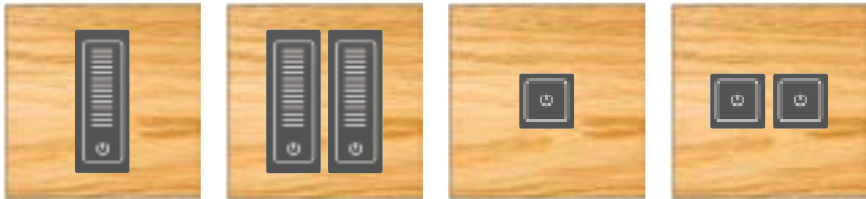

technology to produce the most exclusive style on your wall. The same organic influence is also beautifully expressed in Cream Hide and Dark Hide, which both exhibit classic premium character.

As you would expect from the market leader, Elements Naturals finish seamlessly blends carefully chosen materials derived from nature and groundbreaking technology, to offer you the most exclusive décor for your wall.

DARK HIDE

The experts say, a locator should reveal itself only when it is dark enough for normal view. And it should not light up the space; just locate what is intended.

That is why the experts at Honeywell designed a unique Soft Glow PCB, which may qualify to be called 'the expert locator'.
